

Creative FUNDRAISERS

Creative Fundraisers are art objects designed to raise awareness to your specific cause, charity or significant event. They are intended to communicate your important message in a unique way and act as a constant reminder of the choice that you have made. Additionally, Creative Fundraisers will spark interest and encourage dialogue with others that view each unique piece. Creative Fundraisers are much more than mass produced premiums chosen from a catalog. And each is designed to promote fundraising before, during and after your next event.

Creative Fundraisers can be produced as fine art prints, images on wood blocks or boxes, metal, glass, acrylic or any medium that communicates your message best. We work with images that you provide, or you may choose from a portfolio of images created by our select artists.

Contact Dave Lersch from Printmakers Chicago at 312-672-9304 for more information, to receive a sample, or to schedule a presentation.
